In order to avoid bumping into all sorts of errors and compatibility issues, you need to have Microsoft.NET Framework 3.5 installed on the target computer. Requires no installation You can take advantage of the tool's portability status and drop it on pen drives or other removable devices to carry it with you all the time. Plus, you can run it directly from the storage device on the host PC without applying administrative privileges. No installation process is needed in order to meet the program's interface. A double-click on the executable file is sufficient. You can uninstall it by deleting the files that you have downloaded from the Internet because it does not leave entries in your Windows registry and generate additional configuration items. Interacting with the GUI RapidWareX sports a multi-tabbed layout that makes it easy for you to keep track of downloaded items, add links, export data, chat with other users, as well as configure several general parameters. A help manual cannot be accessed which means that you are on your own when it comes to discovering how the program works. Key features The application offers you the possibility to monitor downloaded files and view information about the filename and overall progress, start, pause, or retry the downloading process, open the saving directory where the downloads are stored, view the total number of grabbed items, remove the downloaded files or all of them with a single click, as well as shut down the computer at the end of the task. Other important configuration settings worth being mentioned enable you to input a whole list of links at once, download multiple files at the same time, retry failed downloads, log in a secure way over HTTPS, check the remaining traffic on your account, and import or export the collections of links. Last but not least, you are allowed to access RapidWareX's features via a web-based interface for remote control (you need to set up the password and port number). The tool can be accessed from any web browsers. Several configuration

All available balance information is displayed in the main menu. You can also verify your download

history using the same function. Manage downloads If you prefer to inspect downloaded files yourself, there is a download history function that helps you track all your downloads. Manage reports Reports are the most important part of your RapidShare account. Many of them allow you to access all of the complete information about your shares, your downloads and even the statistics you usually would not have. You can view the report's PDF version for offline viewing and export it to Microsoft Excel file or generate a report in plain text format. Apply for refunds RapidShare refunds are a very crucial part of their business model. No wonder that accounts with available refunds are
